OSWALD (FELIX), D.Sc., F.G.S. **A Geological Map of the Caucasus.** With explanatory text. Compiled from the latest sources. Scale 1: 1,000,000 (15·78 miles = 1 inch). 15*s*. The geological formations and the igneous rocks are clearly displayed in twenty different colours. The glaciers are also indicated. All heights are given in English feet, and the latest railways have been inserted. The pamphlet of explanatory text gives a brief account of the main physical divisions of the Caucasus, followed by a detailed description of the successive geological horizons with their characteristic fossils. Special care has been taken to indicate the exact position in the geological series at which petroleum occurs in the Caucasian oil-fields.
